Statement of patient

Please read this form carefully. If your treatment has been planned in advance, you should already have your own copy of page 2, which describes the benefits and risks of the proposed treatment. If not, you will be offered a copy now. If you have any further questions, do ask - we are here to help you. You have the right to change your mind at any time, including after you have signed this form.

I agree	 to the procedure or course of treatment described on this form. to a blood transfusion if necessary
	 that any tissue that is normally removed in this procedure could be stored and used for medical research (after the pathologist has examined it) rather than simply discarded. PLEASE TICK IF YOU AGREE
I understand	• that you cannot give me a guarantee that a particular person will perform the procedure. The person will, however, have appropriate experience.
Pictures may be taken of the bladder lining	 that I will have the opportunity to discuss the details of anaesthesia with an anaesthetist before the procedure, unless the urgency of my situation prevents this. (This only applies to patients having general or regional anaesthesia.)
	 that any procedure in addition to those described on this form will only be carried out if it is necessary to save my life or to prevent serious harm to my health.
	 about additional procedures which may become necessary during my treatment. I have listed below any procedures which I do not wish to be carried out without further discussion.

Signature	Print	Date:
of Patient:	please:	

<u>A</u> witness should sign below if the patient is unable to sign but has indicated his or her consent. Young people/children may also like a parent to sign here. (See DOH guidelines).

Signed	
Date	
Name (PRINT)	

<u>Confirmation of consent</u> (to be completed by a health professional when the patient

is admitted for the procedure, if the patient has signed the form in advance). On behalf of the team treating the patient, I have confirmed with the patient that s/he has no further questions and wishes the procedure to go ahead.
